

Denise Doyle

Chief Product Officer & Executive Vice President - HERE Technologies

Denise Doyle is Chief Product Officer of the world's leading location data and technology platform, HERE Technologies.

Possessing decades of experience spanning corporate strategy and development, strategic alliances, business transformation and operations, she has deep business expertise and commercial capabilities.

Ms. Doyle joined NAVTEQ in 1999, working for over a decade leading Business Affairs, joining the executive management team in 2006, as well as playing key roles in the 2004 NAVTEQ IPO and the 2008 merger with Nokia Corporation (which later became HERE).

Since 2011, she has worked across HERE, holding various senior executive roles and responsible for an array of areas such as: corporate strategy and development, intellectual property licensing, monetization, and risk management.

Starting in 2020, Ms. Doyle held the role of HERE's Chief Data Officer encompassing a broad scope including HERE's data acquisition strategy, corporate strategy and development, licensing, IT, security and privacy, sustainability, industry analysts and government relations.

In May 2024, she was appointed Chief Product Officer with a mandate to further elevate HERE's product and technology strategy and capabilities, as well as continuing to lead the wide ambit of HERE's data activities like data acquisition, licensing, IT, privacy and more.

Furthermore, she has previously served as HERE's interim Chief Financial Officer twice, and as interim co-Chief Executive Officer during 2023.

Prior to joining NAVTEQ and HERE, she held business analyst roles at AOL and Miller Brewing Company. Doyle holds a BA in International Business from St. Norbert College in the United States.
